

IPOINT Case

Description

Built upon a highly modular platform, the CONNECT PRO line of products provide an un-paralleled breadth and depth of capabilities for holding, charging, protecting and connecting iPad in professional deployments. The CONNECT PRO Case contains interfaces that allow iPad to mount and connect to any product in the lineup, while allowing access to all iPad features including power button, microphones and speakers. Combine the internal lock with any Station containing a Case lock to deliver a fully secure locking system. The Case is ready out of the box for charging, USB communications and network data connections via the Connect conductive charging interfaces in concert with capable mounting stations (sold separately).
